

Estorian's Search, Retrieval and e-Discovery Technology - LookingGlass – Arrives in the Midwest through Capricorn Diversified Systems, Inc. Reseller Agreement

BELLEVUE, Wash. and FARMINGTON HILLS, MI.—October 14, 2008 – Estorian, Inc., which provides the market-defining LookingGlass interactive message management technology to enable archiving and data loss prevention, today announced a strategic reseller agreement with Capricorn Diversified Systems, Inc., Capricorn is an information technology services, support and systems company.

“Estorian's LookingGlass solution will be well-received in the Midwest, where businesses are grappling with how to navigate changing compliance and e-discovery requirements, and cost-effectively access electronically stored data without disrupting revenue sources,” said Scott Vince, vice president of sales, Capricorn Diversified Systems, Inc.

LookingGlass powers the instant search, retrieval, e-discovery and policy management of electronically stored data in the areas of compliance, data preservation, HR, and legal.

“Volatile market conditions and the financial crisis are accelerating demand for heightened security and adherence to multiple compliance regulations,” said Estorian President and CEO Gary Tidd. “Estorian looks forward to enhancing Capricorn's ability to serve Midwest-based companies interested in cost-effective policy fulfillment and data loss prevention for shareholders and regulatory auditors regarding electronically stored data.”

LookingGlass, which serves companies utilizing Microsoft Exchange, was developed to flag all e-mail history, including attachments in either draft, sent or received form, and social networking in real-time.

- Enables electronic messages and files to be classified and stored for easy access to reduce time and cost to retrieve, search and review – saving thousands and even millions of IT and legal hours and dollars.
- E-mail archiving without the overhead associated with journaling, logging, mirroring or clustering.
- Forensic and real-time search.
- Complete complex searches within minutes and even seconds instead of weeks or months.
- Instant access to corporate communication inside and outside the company, including attachments.

About Estorian, Inc.

Estorian, Inc. (formerly TeraCloud Corporation) continues to define interactive message management while enabling archiving and data loss prevention for electronically stored information for Fortune 2000, government, and mid-market customers. Estorian's LookingGlass product provides instant access to the right data cost effectively in the areas of search, retrieval, archival, e-discovery, and data loss prevention. LookingGlass places the power of search and retrieval in the hands of the stakeholders who need immediate access to the correct data, whether that is legal, security, compliance, or risk management. LookingGlass is the natural complement to the Company's groundbreaking Storage Analytics and Storage Resource Management suite which provides storage utilization analytics to pin-point conditions and predictive events where storage utilization is sub-optimized. Founded in 1991, Estorian is a privately held company based in Bellevue, Wash. For more information, visit www.estorian.com.
